March 30, 1992

To: Members of the Faculty of Arts and Sciences

From: Martin H. Israel

Re: Faculty Meeting, April 10, 1992, 4:00 p.m.

The Faculty of Arts and Sciences will hold its last regularly scheduled meeting of 91-92 at 4:00 p.m. on Friday, April 10, 1992 in Crow Hall, Room 201. Prior to the meeting tea will be served in Compton 241 at 3:30 p.m.

The Faculty Council has approved the following agenda:

1. Approval of the minutes of the meeting of the Faculty of February 28, 1992.
2. Announcements.
3. Approval of May 1992 list of candidates for A. B. degree.
4. Report of the President of the Council of Students of Arts and Sciences.
5. Report of an Arts and Sciences member of the Senate Council.
6. Report of the Chair of the Advisory Committee on Tenure, Promotion and Personnel.
9. Report of the Council of the Faculty of Arts and Sciences, including results of spring election, and
   a. Consideration of Resolution A
   b. Consideration of Resolution B
   c. Consideration of Resolution C
10. Report of the Curriculum Committee concerning approval of course changes, and
    a. Consideration of Resolution D
11. Other matters which may be brought before the Faculty.

Enclosures: - Minutes of Faculty Meeting of February 28, 1992
              - May 1992 A.B. Degree candidate list
              - Resolution A proposed by the Faculty Council
              - Resolution B proposed by the Faculty Council
              - Resolution C proposed by the Faculty Council
              - Report of the Curriculum Committee on the State of the Distribution Requirement
              - Resolution D proposed by the Curriculum Committee
The meeting of the Faculty of Arts and Sciences was called to order at 4:07 p.m. in Room 201 of Crow Hall; Dean Martin H. Israel presiding. There were 43 persons in attendance.

I The minutes of the meeting of the Faculty of October 25 were approved as submitted.

II Announcements:

Dean Israel acknowledged the heroism of Dr. Lynne Breakstone in her rescue of a graduate student from the attack of two pit bull dogs. He announced that the Richmond Heights City Council has moved to enforce constraint of such animals as a consequence of this incident.

Dean Salamon announced a record number of new undergraduate student applications. She thanked faculty members for their continued participation in the reception of prospective new student visitors and in the evaluation of candidates for special scholarships.

Dean Wilson announced that the graduate school also is experiencing a record number of applications for new admissions. He noted their general high quality and thanked those who helped in reviewing graduate applications.

The University Taskforce on Minority Scholarships has submitted comments to the U.S. Department of Education articulating Washington University's strong opposition to the Department's proposed guidelines on financial aid for minority students. These guidelines would preclude institutional support for minority-targeted scholarships and fellowships such as those offered in our highly successful Ervin Scholarship and Chancellor's Graduate Fellowship Programs for African Americans. The basis for the Department of Education's position is the allegation that minority-targeted institutional aid constitutes a violation of the 1964 Civil Rights Act. Our comments suggest alternative language permitting such aid under specified conditions and include a rationale for the legality of this alternative. It was mentioned that other institutions have been slow to follow Washington University's leadership in voicing opposition to the proposed guidelines and that those with colleagues at other institutions may wish to urge them to take action prior to the expiration of the comment period on March 9.

III The report of the Curriculum Committee was presented by Dean Wayne Hanebrink. After additions and corrections to the previously circulated form the report was approved without dissent.

IV The report of the President of the Council of Students of Arts and Sciences was presented by Vice President Michelle Zimmerman in the absence of President Meke Smith. She thanked members of the faculty who participated in the symposium of February 18 on "Arab-Israeli Peace Prospects". She announced that teaching awards will be given in the four categories of Natural Sciences, Social Sciences, Humanities, and Large Freshman/100 Level Classes. A program of peer consulting through files on specific courses is being inaugurated by CSAS, and a program of student-faculty liaison on a departmental basis is being organized.

V The report of the Arts and Sciences member of the Senate Council, Professor Michael Friedlander, en-
numerated the three main topics occupying the Council at present as: 1) scholarship programs for minority students, 2) re-opening of the issue of gender-based pay inequities in schools not previously responsive on the subject, and 3) continuing dissatisfaction with the parking situation.

VI The report from the Council of the Faculty of Arts and Sciences was read by Professor Martha Storandt, Chair. She asked for additions to the slate of candidates for offices and committees that had been circulated. There being none, the slate was approved unanimously. Ballots for the positions controlled by Arts and Sciences will be distributed next week.

Two other items to be brought to the Faculty in April by the Council are:

1) Updating the "Greenbook" Manual of Procedures is required periodically and preparation is almost complete. Some items contained in it will require votes by the Faculty, and resolutions will be presented for the April meeting.

2) The office of Ombudsperson, established in 1974 at the request of undergraduate students is now being recommended for extension to cover graduate students. Appointment procedures will require votes and agreement among the Faculty of Arts and Sciences, the Council of Students of Arts and Sciences, and the Graduate Council.

VII There being no other business, the meeting was adjourned at 4:35 p.m.

Respectfully submitted,

J. Ely Shrauner
Secretary

RESOLUTION A

Presented by the Faculty Council for consideration at the April 10, 1992 meeting of the Faculty of Arts and Sciences.

Resolved

The regulations governing the Advisory Committee on Tenure, Promotion, and Personnel, originally adopted by the Faculty at its meeting on October 25, 1985, be amended as follows:

In Section B.1.c underlined words are to be added:

A member of the Committee who is also a member of the candidate's department may participate in regular sessions but may not attend those parts of executive sessions that deal with the candidate, and may not vote on the question;

Explanation

The present wording is ambiguous. It could be interpreted as stating that a committee member who is a member of the candidate's department can be present at the executive session concerning the candidate and is merely prohibited from contributing to the discussion.

The amended wording (i.e., may not attend) is congruent with current and past practice, and no disagreement has arisen about this practice. The Faculty Council merely wishes to recommend clarification of what it considers an ambiguity in wording.
RESOLUTION B

Presented by the Faculty Council for consideration at the April 10, 1992 meeting of the Faculty of Arts and Sciences.

Resolved

The regulations establishing the Office of Ombudsman, originally adopted by the Faculty at its meeting on May 3, 1974 be amended as follows:

Bracketed words to be deleted; underlined words to be added.

4. The ombudsman shall be appointed by a committee of six, composed of [an equal number of] two members [from] of the Faculty Council [and], two members of the Council of Students of Arts and Sciences, and two members (one student, one faculty) of the Graduate Council.

5. An annual evaluation-report shall be made by the ombudsman to the Faculty of Arts and Sciences, [and] to the Council of Students of Arts and Sciences, and to the Graduate Council.

Explanation

At present the ombudsman deals only with complaints from undergraduate students. The proposed amendment would explain this charge to include graduate students.
RESOLUTION C

Presented by the Faculty Council for consideration at the April 10, 1992 meeting of the Faculty of Arts and Sciences.

Resolved

A quorum shall be defined as 50 voting members; this definition of quorum supersedes any provision setting the size of a quorum in Eliot's Basic Rules of Order.

Explanation

Except as otherwise specified by duly passed resolution of the Faculty of Arts and Sciences, Eliot's Basic Rules of Order are followed in the conduct of all meetings. These rules specify that a quorum is a majority of the total membership. They also state that many large organizations provide for a quorum substantially less than a majority.

There are approximately 350 voting members of the Faculty. It is often the case that substantially fewer than a majority of the voting members attend Faculty meetings. For the Faculty to conduct its business in an orderly fashion, the Faculty Council recommends that a quorum be defined as 50 voting members, approximately one-seventh of the total membership.

Advance notice of the business to be conducted at any meeting of the Faculty must be sent to all members at least one week in advance. No binding resolution can be passed at any meeting if it has not been included with the agenda. This requirement assures that a small group cannot decide the course of action on controversial issues.
THE STATE OF THE DISTRIBUTION REQUIREMENT

In light of national debates on undergraduate education, the College Curriculum Committee decided in the Fall of 1989 that it would be useful to undertake a review of the current system of distribution requirements, which has been in use by the College of Arts and Sciences since 1979. Following extensive internal discussions, as well as a survey—via questionnaire—of some 120 written opinions expressed by juniors, seniors, and individual professors of the Faculty of Arts and Sciences, the Committee has compiled the following recommendations and a resolution that it wishes the Faculty to consider.

Recommendations:

1) Although a College-wide language requirement has the strong support of only a very small segment of the Arts and Sciences community, the Committee recommends that all departments of the university reconsider the need for foreign languages within the context of their major and minor requirements. If, in the judgment of a given department, knowledge of a foreign language is deemed indispensable—or even highly desirable—for mastery of the discipline, the Committee recommends that the department consider requiring, or at minimum highly recommending, courses which provide such knowledge for its students.

   Departments in the humanities and social sciences might choose, in particular, to require language facility for candidates for Senior Honors in their fields. Whenever possible, departments should validate and reward the use of readings in foreign languages as part of preparation for essays, theses, and the like.

2) Those departments that currently offer courses fulfilling Category A (Natural Sciences) of the distribution requirements should continue to expand appropriate offerings in their respective disciplines, particularly for non-science majors. The Committee commends the departments of Biology, Earth Sciences, and Physics for recent additions which treat the natural sciences in their social contexts, and would welcome similar courses in Chemistry, e.g. Chemistry as it relates to the environment. Further recommendations include more offerings in the history of science and laboratory-based courses that offer "hands on" experience. Departments not currently offering courses in category A, such as Psychology and Mathematics, are encouraged to create alternatives that might also fulfill this requirement. Any course developed in line with these recommendations will require approval by the Curriculum Committee in accordance with standard procedures.
RESOLUTION D: Proposal to Diversify the Non-Western Cultures Aspect of the Distribution Requirements.

Discussion

The Q requirement as now formulated groups several different areas of inquiry into a single catch-all category. The present category, as defined in degree requirements, includes courses in Latin American, Asian, African, and Afro-American culture. Such a grouping suggests an equivalence between very distinct phenomena.

Liberal education might be best served by including in a planned curriculum the most diverse sources and areas of knowledge. This breadth encourages students to use a comparative approach through which each area is better understood. Acknowledging minority experience, and therefore the complexity of American culture, is a very different intellectual endeavor from studying non-European societies outside the United States. Resolution D recognizes both the variety of cultural experiences and the centrality of gender in the organization of societies.

The division of Q into three parts will allow the curriculum to reflect an expanded and more coherent understanding of cultural difference. Although it requires students to select courses from only two of the different categories, this revision will encourage students to examine all three dimensions in their studies. In principle it does not add to the total of courses required for distribution; it simply adds to their diversification.

Resolution

Whereas the University community recognizes the need for increased knowledge of issues pertaining to minority groups in the United States, to non-European societies outside of the United States, and to questions of gender,

Be it therefore resolved that:

The notes to the formal statement of the Distribution Requirements for the Bachelor of Arts Degree in the College of Arts and Sciences be amended as follows:

[Of the nine courses required under categories B, C, D, E, F, and G, at least] one or more courses must be chosen from [an] approved lists of courses [dealing with Latin American, Asian, African, or Afro-American culture.] in at least two of the following categories: minority groups (African-Americans, Asian-Americans, Hispanic-Americans, and Native Americans) in the United States (designated by P); non-European societies outside of the United States (designated by O); gender studies (designated by R).
3. [A course may be listed in only one distribution requirement category.] Courses that fulfill categories P, O, and R may—but need not necessarily—also count toward fulfillment of categories B through G.

Omit language in brackets; add underlined language.

Examples of courses that the Curriculum Committee believes might be submitted as potentially fulfilling the new designations:

**P**
- AFAS 101B, 102B - Introduction to Afro-American Studies
- ELit 314 - American Indian Literature from Mythtime to Modern Time
- Hist 261C - History of Racial Minorities, 1600-1865
- Hist 388C, 397C - Black America to the Civil War
- Pol Sci 448 - African-Americans and the Political System

**Q**
- Anthro 318C - The Prehistory of Africa
- Art-Arch 4462 - The History and Monuments of Peking
- East Asia 229C - Oriental Philosophies
- French 443 - Contemporary Francophone Literature
- Hist 313C, 314C, 315C - Islamic History, 622-1200
  Islamic History, 1200-1800
  The Middle East in Modern Times, 1800 to the Present
- Pol Sci 326B - Latin American Politics
- Span 335C, 336C - Spanish American Literature I, II

**R**
- Comp Lit 4491 - French Feminism and Its American Reception
- Ital 432 - Women Writers of the 20th Century
- JNE 306 - Women Writers of the 20th Century
- M Heb 340 - Israeli Women Writers
- Psych 309 - Homosexuality: Social and Psychological Aspects
- STA 210B - Changing Sex Roles
- WS 100B - Introduction to Women's Studies
- WS 208B - Masculinities: Challenge and Reaction

The Committee thinks that some courses which are not sufficiently general to satisfy categories A-G might nonetheless fulfill well the goals of Resolution D.

Submitted by the Curriculum Committee
April 10, 1992
The following students have submitted an intent to graduate to the University Registrar. Until faculty turn in grades this semester for seniors, it will not be known whether these candidates for the Bachelor of Arts degree have fulfilled all degree requirements.
